Maybe even better than free.

You don't need any special software installed to be able to download your files. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Keep your files private, or send your download links only to friends or family. Using file, you can circumvent those limits without paying to upgrade your team chat service. Any file in any format can be uploaded and downloaded for free. Just upload the file you want to share with your friends and we send you a download link to your file. File is free to use with no gotchas and no hidden fees. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. It is also allowed to link to the download page from websites and communities. The cost of that data transfer is covered by your internet service or the data plan on your phone. You can give this download link to your friends by mail or instant messenger. filehosting provides an easy possibilityfor you to send large files to your friends. Unfortunately, we can't make that part free. If only we could, we surely would! On the other hand, using file canactually save you money. Files can be downloaded from any computer from our high speed servers. This is easy, fast and reliable filehosting! You don't needany kind of premium-accounts. You can upload any type of file (movies, music, documents, images, zip files and more). No account or credit card is required toget started. Our service is completely free for everyone. There are no restrictions on the number of times a file can be downloaded. We have no file size limit.Simply upload your file and share the link. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat appshave limits to the size of files that can be transferred within their apps. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you sharea file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. You decide who you want toshare your files with. So try our free and simple filehosting service now.
