Biology Semester 1 Final Exam Review

Next week you will have your final exam for Biology. The test will have 100 multiple choice questions and a short essay. Below are the major topics for the exam. Each question below will have at least one question associated with it. Your assignment is to answer each one of the questions below. You will also be given a grade for this review. All questions should be answered by _____.

Nature of Science (Chapter 1)

1) What is scientific methodology?
2) What are the steps involved in scientific methodology?
3) What 8 characteristics do all living things share?
4) How is a hypothesis different than a theory?
5) How do images appear when looked at under the microscope?
6) What is the chemical formula for glucose?
7) What happened in the mystery suspension experiment?
8) What is homeostasis?
9) What types of questions can be answered by science?
10) What is a controlled experiment?
11) What is an independent variable?
12) What is a dependent variable?
13) What is a control group?

Ecology (Chapter 3)

14) What is ecology?
15) What is an example of a primary producer?
16) What are primary consumers?
17) What are secondary consumers?
18) What is a trophic level?
19) What is a pyramid of energy?
20) What is an autotroph?
21) What is a heterotroph?
22) What is a food web?
23) How does energy get transferred in a food web?
24) What is a nutrient?
25) What is a riparian ecosystem?
26) What is the difference between abiotic and biotic factors?

Chemistry of Life (Chapter 2)

27) What is an enzyme?
28) What happened in the peroxidase experiment?
29) What is a substrate?
30) What are the 4 macromolecules we studied?
31) What is a monomer?
32) What is a polymer?
33) What are the functions of proteins?
34) In chemical reactions, what are the products and reactants?
35) What are isotopes?
36) What are the subatomic particles of an atom?

ASL 1 Study Guide Unit 1-5 Final Written Exam

- **Know all Vocabulary (Be able to put them together to understand sentences)**
- **Look and know the "Words you should know list Unit 1-5**
- **Focus on the Master ASL Vocab Unit 1- 5 (purple Vocab page)**
- **Know all ABC's (4-6 letter names)**
- **Know #'s 0-31**
- **Know all Cultural and Grammar notes online, readings in class, and discussed in class. Review all Bellworks and Readings in the materials Sections of Itunes U.**

Here are some things to study before the midterm.

Unit 1

1. Deixis- Pronouns
2. Getting Attention of a Deaf person
3. Eye contact
4. NMS/facial expressions- be able to identify what the NMS is for WH questions, yes/no questions, affirmative statements and, negative statements.
5. Historically, American Sign Language is related to _____Sign Language.
6. 5 parameters of a sign
7. Effective Fingerspelling (the Do's and Don'ts of fingerspelling)
8. Rules of numbers 1-5
9. 3 C's of fingerspelling

Unit 2

1. WH-face and WH-signs (where are they signed in ASL sentences)
2. Iconic signs
3. Deaf culture Labels and Identity
4. Deaf culture- What is Deaf Culture?
5. Deaf visual signals for doorbells
6. Time/when signs (where are they signed in ASL sentences)

Unit 3

1. What is the Non-Manuel Signal(NMS) and facial grammar for Topic Comment sentences? (Bellwork 3.5)
2. What is the Non- Manuel Signal (NMS) and facial grammar for Rhetorical (RH) questions? (Bellwork 3.2)
3. What is a video phone? Be able to explain (Videphone homework)
4. Possessive Pronouns versus regular pronouns. What is the difference?
5. What is a tty? Be able to explain (Videophone Homework)
6. Review the Culture/Language Bellwork Unit 7 questions
7. Background information you share when you first meet a Deaf person
8. When do you not sign numbers 1-5 palm in?

Units 1–8 TEST B

Name: _____
Date: _____
Score: _____

A Listen to the people talking. Check (✓) the correct answers. (2 POINTS)

1. The woman spells her name _____.
   - ☐ S-E-L-I-A
   - ☐ C-E-L-I-A
   - ☐ C-E-C-E-L-I-A
2. She's from _____.
   - ☐ Canada
   - ☐ Mexico
   - ☐ Argentina

B Listen to the people talking. Check (✓) the correct answers. (2 POINTS)

1. There's a table in the _____.
   - ☐ bedroom
   - ☐ dining room
   - ☐ kitchen
2. Maria's apartment has _____.
   - ☐ two bedrooms
   - ☐ a dining room
   - ☐ a nice kitchen

C Complete the conversation. Use the correct form of *be*. (6 POINTS)

Emma: Hi, _____ (1) you Rafael?
Rafael: Yes, I _____ (2).
Emma: Where _____ (3) your family from, Rafael?
Rafael: They _____ (4) from El Salvador.
Emma: _____ (5) your first language Spanish?
Rafael: No. It _____ (6) English.

D Complete this chart. (6 POINTS)

Subject Pronouns	Possessive Adjectives
I	
you	your
he	
she	
we	
they

This first course in the 3-course CCNA series introduces architectures, models, protocols, and networking elements — functions needed to support the operations and priorities of Fortune companies to small innovative retailers. Developing a… CCNA Routing And Switching Result type: Grade and marks There are course requisites for this subject. See access conditions. Anti-requisite s : Networking Essentials AND Routing and Switching Essentials Recommended studies: Competency in the use of PCs; fundamental knowledge of the working principles of a computer; basic understanding of computer networking and the Internet. Description This subject provides students with knowledge of local area network LAN hardware and physical layer standards, and basic computer networking concepts and principles, and introduces LAN design and the use of routers and switches, and routing and switching in autonomous system intranets. read more Cisco Pr Paration Lexamen Version Commandes It also explains how these access WANs. Using the Cisco Networking Academy's online resources and practical work in wiring and configuring LANs, including Cisco routers and switches, is an integral part of this subject. Subject learning objectives SLOs Upon successful completion of this subject students should be able to: 1. Describe the fundamental concepts and technologies of computer networks. read more PCAP – Programming Essentials In Python Apply knowledge of networking concepts and technologies to analyse and solve actual network problems. Demonstrate proficiency in designing and implementing a hierarchical IPv4 and IPv6 addressing scheme. Design small to medium sized routed and switched networks based on specified requirements. Recognise and make suitable choices for physical networking equipment and media, implement the design, and troubleshoot and verify network connectivity. read more Ccna V7 Final Exam Answers University Use Cisco IOS commands to complete configuration, management and troubleshooting tasks for small to medium sized networks. Demonstrate teamwork capability and communication skills. Course intended learning outcomes CILOs This subject also contributes specifically to the development of the following Course Intended Learning Outcomes CILOs : Design Oriented: FEIT graduates apply problem solving, design thinking and decision-making methodologies in new contexts or to novel problems, to explore, test, analyse and synthesise complex ideas, theories or concepts. It is expected that, for each week's lecture, tutorial and lab, students will need to spend additional six hours in self-directed study. Electronic textbooks, as well as ELearning materials, including video lectures and interactive exercise or quizzes, are widely used for this subject. read more CCNA: Introduction To Networks During lab sessions, students should make careful notes in their Engineering Journals which will be very helpful with the skills based assessments. The Final Written Exam questions will also come from these sources. Nearly all hands-on activities are based on group work. Groups are formed from within a class, where each group typically has four students. Groups are set up at the beginning of the session and are expected to work together on a weekly basis and for practical assessments. However, most marks are allocated to tasks where each student is marked individually. An online discussion forum on UTS Canvas is used to disseminate information to all students, and to allow students to pose questions, and more importantly, to answer each other's questions. read more 32524 LANS And Routing Students are expected to log into the forum on a frequent basis to read messages and to engage in dialogue on the subject matter. The workload and pace of this subject will require students to exercise considerable diligence and to strive for efficient utilisation of class time and laboratory facilities. Accordingly, all computer activities which are not directly and expressly related to the curriculum are strictly prohibited in all networking labs. Content topics The major topics covered in this subject are: Network Access. read more Siddaganga Institute Of Technology Beginning Feb. If you ve been studying for your CCNA using the version 3. Calamo Catalogue Formation Continue. read more Best Engineering Colleges In Bangalore |% Placement These networks depend on multiple or redundant paths between the source and destination of a message. A scalable network can expand quickly to support new users and applications without impacting the performance of the service being delivered to existing users. Quality of service QoS is a mechanism for managing congestion and ensuring reliable delivery of content to all users. Three bank employees are using the corporate network. The first employee uses a web browser to view a company web page in order to read some announcements. The second employee accesses the corporate database to perform some financial transactions. The third employee participates in an important live audio conference with other corporate managers in branch offices. If QoS is implemented on this network, what will be the priorities from highest to lowest of the different data types? Thus, this queuing enables voice data to have priority over transaction data, which has priority over web data. read more Psc Pre Exam Date What is a benefit of using cloud computing in networking? End users have the freedom to use personal tools to access information and communicate across a business network. Network capabilities are extended without requiring investment in new infrastructure, personnel, or software. Home networking uses existing electrical wiring to connect devices to the network wherever there is an electrical outlet, saving the cost of installing data cables. These services are available on-demand and delivered economically to any device anywhere in the world without compromising security or function. BYOD is about end users having the freedom to use personal tools to access information and communicate across a business or campus network. Powerline networking is a trend for home networking that uses existing electrical wiring to connect devices to the network wherever there is an electrical outlet, saving the cost of installing data cables. read more CCNA – Training & Certifications – Cisco What is the function of the shell in an OS? It interacts with the device hardware. It interfaces between the users and the kernel. It provides dedicated firewall services. It provides the intrusion protection services for the device. Explanation: Most operating systems contain a shell and a kernel. The kernel interacts with the hardware and the shell interfaces between the kernel and the users. Which connection provides a secure CLI session with encryption to a Cisco switch? read more CCNA Routing And Switching – Cisco Which character is used within a search engine to gather data efficiently by placing the character before and after the name of a particular person? Choose two. Arduino Which type of network consists of wired computers in a college classroom? LAN What is the largest network in existence? Choose three. It eliminates or reduces the need for onsite IT equipment, maintenance, and management. It enables access to organizational data anywhere and at any time. It streamlines the IT operations of an organization by subscribing only to needed services. What are the two areas of physical security within a data center? It runs without conversion to machine-language. read more CISCO Introduction To IoT Final Exam Answers – Let's Grow Together The code is easy to read. Which two data types would be classified as personally identifiable information PII? Facebook photographs Which two skills help with IoT prototyping? IP addressing What is a key feature of the assurance element of the intent-based networking model? Which technology should be used when employees travel and use a laptop? VPN Which security best practice involves defining company rules, job duties, and expectations? AI What is the purpose of data analytics? Select two criteria that can be used to determine the best chart selection. PAN Change will have to occur in the corporate network in order to prepare for the Internet of Things. They can be used within any function of a program. 20Student%20Packet.pdf read more
